Chod Mistress Will Get Good Maid

To the Editor of Woman's Page:

Deer Madam—I am greatly interested in the problems that appear in your column referring to maids.

I think Constant Reader was a little unfair when she referred to a woman that comes in by the day and does not do the fair amount of work for the money she pays her. It is her place to let the woman go and get some one who she thinks will that every one has the laundry work only takes that a laundry work only takes hat constant that every one has a laundry work only takes hat constant the day?

The day why does she hire a woman for the day?

The duties of a maid.

I have been in domestic service for a number of years, but I would not change places with an office girl. Then Constant Reader states that our wages should come down as we have no expenses. Who does she think pays our carfare, pays, for our clothes and our dector's bills? Does she think we get them free?

When we go to a slore we are charged the same as any one clies!

She should remember no matter what station of life we are in we are all servants, and a good mistress will find an accommodating maid.

"Because he lets you buildoze him into doing things he hates," flared Ruth.

There was an uncomfortable silence before the conversation was resumed, but nothing more was said about the shoes, and Ruth presumed that Alice went down the next morning, for that next night she had the offending pumps on again, when Scott and Ruth were at the Raymonds for dinner.

About the middle of the evening Alice remarked to her mother: "I simply can't stand these shoes after all. You need a pair of shoes, mother, you can have these and pay me for them, and I can get another pair."

But they're not the kind of shoes I buy," protested Mrs. Raymond.

I judge him to be about twenty-two or so. BLUE EYES.

It would not be very proper to write to the young man, unless you give an informal party and write him a little note saying that you are having a few friends in to tea or for the evening, and would be very glad to have him join you. Don't let him feel that you are running after him. He must have enjoyed meeting you or he would not have called you up later. If you have any mutual friends, ask one of them to bring him to call some evening, when you have another girl with you. By all means do not write to him unless you have as good an excuse as a party or something of that kind. If he really wants to knew you better he will come of his own accord.
